

Because I do these sheets for myself, there are a lot of arcane symbols and letters that I understand and use, but someone not familiar with them would not. So a few words. I've marked some in yellow so you can find them easily. All of them are indicators of something different, and can lead you to profits. Let's start with the short sheets and FLR+. That simply means the horse's last race was faster than its average. SLR?- means the horse ran significantly slower in its last race than in the race before, and it tells you how much more slowly. SP- means the horse ran slower than its average, and also tells you by how much. BTL means the horse ran Better Than Looked in its last, denoted by the number of length's lost by being lower than the finish position; for example: finished 4th, but lost by only 1 1/2 lengths. The long sheets, sorted by closing, have some more. DROP SWITCH means the horse is dropping in class and switching riders, which sometimes results in big payoffs. THIRD OFF means this is the horse's third race since a layoff, often when a horse runs its best race.

That's all for now.
